3+1+1 program alumna

Xu Yan (Iris)

M.Eng in Environmental Engineering

This experience was surprisingly amazing. The professors are very knowledgeable, patient, and helpful. It was also a very good opportunity for me to discover and appreciate different cultures. This program gave me an opportunity to have a great start for my career. I'm now EIT and will become a P.Eng this September! I currently work in a consulting company as Environmental Engineer. Through studying at uOttawa Faculty of Engineering, you will have a colourful school life and will gain the experience that will have an incredible impact on your career.
